Kumon maths is for children who are just starting to learn arithmetic or for those who find maths very difficult and are failing in class. It is not for math savvy children in higher grades. Children are given a timed test to 'check their level' and placed at a certain level of practice. Most children inevitably start with basic arithmetic like '8+1='. Try doing 150 problems in 10-15 ...

The QA section on the other hand was again on similar lines to the CAT 2020 Slot 1 Paper. An overall score of 105-107 would be sufficient to obtain a 99%ile. CAT 2020 Slot 3 was similar to the previous slots in terms of the paper pattern. The DILR section was somewhat tougher in comparison to the previous slots. An overall 99%ile is expected to be reached at an overall score of 100-102. CL ...

14 Responses to “Jaquaying the Dungeon – Addendum: How to Use a Melan Diagram” Dennis Laffey says:. I’d suggest referring confused readers to subway route maps, as they similarly simplify the twists and turns of subway lines into straight lines, with bends used mostly for space or practical concerns, not to follow the real world geography.
